

In the Specification:

On page 1, immediately below the title, applicants hereby insert the following new subtitle:

"Background".

On page 2, applicants hereby replace the final paragraph with the following new subtitle:

"Summary"

On page 8, applicants hereby delete the second full paragraph (lines 7 and 8).

On page 9, applicants hereby replace the third full paragraph (lines 13-18) with the following paragraph and subtitle:

"The fibre composite according to the invention can be produced preferably by compaction of at least one non-woven mat in a heated tool ~~according to at least one of the claims 1 to 20.~~

Suitable pressures in this respect are 0.05 -15 N/mm². The density of the fibre composite to be produced can be adjusted according to the pressure applied and the reinforcing fibres used.

Brief Description of the Drawings"

On page 10, before line 1, applicants hereby insert the following subtitle:

"Description of Examples"
